

## Identifying The Children

Twice a year, our mission team travels to Ukraine and Latvia to meet and interview children in their orphanages and foster homes. A host family is able to select the child or siblings they would like to host through our password protected online photo listing which provides a recent photo and brief biography.

## What Is Hosting?

Hosting is inviting an orphaned child from another country to be a member of your family for 4-6 weeks. NHFC offers hosting programs twice a year: Summer and Winter, from Latvia and Ukraine.

NHFC is the largest faith-based orphan hosting organization in the United States. Since 2002, more than 3,600 children have been hosted through our ministry nationwide. Hosting is ideal for Christian families with a heart for missions, but can not travel overseas for a mission trip. With hosting, we bring the mission trip to your family and community.

## Hosting Cost

The cost to host is \$2,950 per child. All fees are tax deductible as New Horizons for Children is a 501 (c)(3) Non Profit Charity Organization. Fees cover international airfare, passport, visa, health insurance, translation of documents, in country travel, training cost, and a portion of chaperone expense.

*“One of the most significant seeds we can ever plant in the life of the fatherless, is the seed of hope. A field has no hope of a future crop without the planting of seed. Hope is vital to a person’s survival, especially when the odds are completely stacked against them.”*

C. Thomas Davis  
Fields of the Fatherless

## Facts

Upon leaving an orphanage, a young teen’s life offers a grim future:

- 60% or more of the girls will be lured into prostitution, sold into slavery, or work/live in sweat-shops.
- 70% or more of the boys end up homeless, in jail, or fall victim to human trafficking and child labor.
- 15% commit suicide in the first two years of leaving the orphanage.

ONE person can revolutionize a life. You can make a difference.
